

Scope Plane

What they say they need

- A SPA (Single-Application) Website.
- Incorporate links or buttons to allow the user to navigate the site.
- To ensure that the site is responsive as possible.

What they actually need

- A mobile-first responsive website.
- A fully interactive one-page website that is easy on the eye and captures the user's interest.
- A contact form.
- The use of Google Maps
- A gallery to showcase photos.
